

Alternatives to Polyvinyl Chloride (PVC) and Di (2-Ethylhexyl) Phthalate Medical Devices on the European Market

Products generally made of PVC that can be substituted for PVC- and/or DEHP-free alternatives:

Ambulatory products	Dressing Products	Irrigation/Drainage
Anaesthesia Products	Ear Nose and Throat (ENT) Products	<ul style="list-style-type: none"> • drains • drainage systems • drainage catheter • body fluid disposal kits • surgical and wound drains • free line suction catheters
<ul style="list-style-type: none"> • catheters • guedel airways • nasal airways • face masks 	<ul style="list-style-type: none"> • tracheostomy tube holders • laryngectomy tubes • stoma studs • laryngo foam filters 	Laboratory Products
Bedding Products	Epidural Vessel Catheters	Patient Care Products
Body Bags	Enteral and Total Parenteral Feeding Products	Radiation Aprons and Shields
Body Protection Products	<ul style="list-style-type: none"> • bags and tubing • extension sets • gastrostomy tubes • nasoenteric tubes • nasogastric tubes • nasojejunal tubes • pediatric clear straightcatheters • PEG tubes • accessories - feeding connectors • pump administration sets 	Respiratory/ Oxygen Therapy
<ul style="list-style-type: none"> • aprons • overshoes • eye protection 	Gloves	Products
Blood Collection/ Infusion Products	<ul style="list-style-type: none"> • examination • surgical 	<ul style="list-style-type: none"> • oxygen tubing • nasal tubes • endotracheal tubes • humidification systems • intubation sets • laryngectomy tubes • oxygen, resuscitation masks • oesophageal tubes • suction pump tubes • resuscitators • tracheostomy tubes and cannulae • nasopharyngeal airways
<ul style="list-style-type: none"> • blood bags • cord blood freezing bags • blood filters • blood packs 	Gastroenterology Products	Reusable Products
Central Line	<ul style="list-style-type: none"> • ostomy bags • rectal pressure catheters • jejunal feeding tubes • abdominal pressure catheters • rectal tubes • hurst esophageal bougie 	Syringes
Catheters and PICC Lines	Identity Wrist Bands	Total Parenteral Nutrition
<ul style="list-style-type: none"> • central venous catheters • midline catheters • peripherally-inserted central catheters(PICC) 	Intravenous (IV) Products	<ul style="list-style-type: none"> • bags • catheters • tubing
Diabetic Care	<ul style="list-style-type: none"> • administration sets • anti-coring needles • IV bags and containers • IV tubing • infusion filters • extension sets • IV catheters • intravenous cannulas 	Urinary/ Incontinence Products
<ul style="list-style-type: none"> • Insulin Syringes • Insulin Pens 	Disposable Plastics	<ul style="list-style-type: none"> • bladder catheters • urinary drainage bags • urinary catheters
Diagnostic Equipment	<ul style="list-style-type: none"> • plastic packaging, bottles, stoppers • pipette tips, cuvettes, inhalers • tweezers and forceps • disposable bags • autoclave disposable bags • surgical spears 	
<ul style="list-style-type: none"> • sampling kits 		
Dialysis		
<ul style="list-style-type: none"> • hemodialysis catheters • peritoneal dialysis sets 		

The listing of products in this table does not constitute an endorsement of the products nor were the products tested for safety or efficiency by the authors or Health Care Without Harm. Products should be tested and evaluated before purchasing to ensure they meet required performance specifications. The table lists only examples of products offered on the European market with special focus on Great Britain and does not aim to cover all manufacturers operating in Europe.

Sources: Medical device companies identified through the Association of British Healthcare Industries (<http://www.abhi.org.uk/>), Medical Device Link (<http://www.devicelink.com/>), Health Care Without Harm. Products identified through web searches, online product catalogues and email correspondence and interviews with company representatives.
